PROJECTS

- **AGP Pharma**

  Designed a clean corporate annual report layout focused on readability, hierarchy, and professional presentation

- **MaxERP**

  Designed dashboard and ERP interface screens focused on usability, structure, and responsive layouts

- **Gochauff**

  Designed an iOS mobile app for solo chauffeurs in USA, which includes Onboarding, Dashboard, Settings

SUMMARY

Multidisciplinary designer specializing in graphic, branding, UI/UX, and product design with proven expertise in crafting visual identities, responsive digital interfaces, and enterprise solutions such as ERP dashboards. Adept at integrating user-centered design principles with technological insights to enhance usability and aesthetics. Demonstrated success leading projects that improve client satisfaction and reduce bounce rates. Currently advancing technical skills through a BSCS program at Iqra University.

EXPERIENCE

Self-Employed / Freelance — Karachi, Pakistan
Freelance Designer — 05/2026 - Present

- Work with clients on branding, graphic design, UI/UX design, and digital product design projects
- Design logos, brand identities, social media creatives, reports, mockups, and professional documents
- Create clean and responsive interfaces for websites, mobile apps, web apps, dashboards, and ERP-style systems
- Support projects from visual direction and layout planning to final design delivery

Max ERP / Meet Max — Dubai, United Arab Emirates
Product Designer — 08/2023 - 05/2026

- Designed and delivered mobile apps, web apps, websites, and product interfaces for digital platforms
- Created user-friendly layouts, responsive screens, and structured flows for product-based experiences
- Worked on ERP interfaces, dashboards, and web app screens focused on usability and clarity
- Improved visual consistency across screens through clean layouts, hierarchy, and design structure
- Collaborated on projects involving social media platforms and digital product experiences

Max ERP / Meet Max — Dubai, United Arab Emirates
Junior Product Designer — 07/2022 - 08/2023

- Assisted in designing product interfaces, UI layouts, and user flows for digital products
- Supported website, mobile app, and web app design tasks
- Worked on improving interface consistency, usability, and responsive layouts
- Contributed to design iterations, layout refinements, and visual improvements

INTERESTS

- **Product Design & User Experience**

  Interested in creating clean, useful, and user-friendly digital products that solve real problems.

- **Brand Identity & Visual Design**

  Enjoy exploring logos, typography, color systems, and visual styles that make brands look professional.
